

## LETTER OF RECOMMENDATION

I am writing this letter on behalf of Dinosurffers home improvement and repairs. We hired them to replace our kitchen cabinets, remove the tile and replace with a new one and paint the interior of the house except the bedrooms. We had a kitchen fire that prompted us to have to make this remodel of our kitchen.

The remodel job that Bill Rosemeier, owner of the company and his crew did in our kitchen floor was absolutely fantastic.

Not only was the job completed on schedule, you can tell it was done by a skilled craftsman. Doing construction, home repairs, remodeling is always a bit scary for a homeowner since you are not sure if the job will be done right or that the person is reliable. With you and your crew, we never doubted it once.

Your professional approach, fair pricing, and keeping us informed so we had a good idea how the completed project would look like. We had complete trust in Mr Rosemeier/ Dinosurffers home repair and in knowing that you could fix or build anything and do it right. It was such a pleasure working with your company.

Sincerely,  
Mr & Mrs Togun.
